TPTC Design system

Colors

The color system defines a consistent set of tokens used across all UI components. Each color has a specific role — primary actions, feedback states, neutrals, and accents — ensuring visual harmony and accessibility throughout the product."

Primary

The color system defines a consistent set of tokens used across all UI components. Each color has a specific role — primary actions, feedback states, neutrals, and accents — ensuring visual harmony and accessibility throughout the product.

Base

Used for primary text, high contrast, and solid backgrounds

Black	White
FFFFFF#	FFFFFF#

Grey

Used for neutral backgrounds, borders, and secondary text

50	100	200	300	400	500	600	700	800	900
#FFFFFF	#d3d5d8	#bec0c5	#a0a3aa	#8d9199	#717680	#676b74	#50545b	#3e4146	#2f3236

Blue

Used for primary actions, links, and interactive elements

50	100	200	300	400	500	600	700	800	900
#eaf1ff	#bdd3ff	#9dbdff	#709fff	#548dff	#2970ff	#2566e8	#1d50b5	#173e8c	#112f6b

Red

Used for errors, destructive actions, and critical alerts

50	100	200	300	400	500	600	700	800	900
#feeceb	#fac5c1	#f8a9a3	#f5827a	#f36960	#f04438	#da3e33	#aa3028	#84251f	#651d18

Orange

Used for warnings, alerts, and attention-grabbing highlights

50	100	200	200	400	500	600	700	800	900
#FEF4E6	#FDDDB3	#FBCC8E	#FAB55A	#F9A63A	#F79009	#E18308	#AF6606	#884F05	#683C04

Green

Used for success states, confirmations, and positive feedback

50	100	200	300	400	500	600	700	800	900
#e8f7f0	#b7e7d1	#94dcba	#64cb9b	#45c188	#17b26a	#15a260	#107e4b	#0d623a	#0a4b2d

Secondary colors

Secondary colors support the primary palette by providing additional visual cues for specific UI states. They are used for status indicators, contextual highlights, and decorative accents without competing with the primary brand colors.

Gray cool

Used for cool-toned neutral backgrounds, subtle borders, and muted secondary text

50	100	200	300	400	500	600	700	800	900
#eff0f5	#d8dbe6	#b9bfd3	#99a2be	#7a86ab	#5d6b98	#4f5b81	#424c6c	#353d57	#2a3044

Gray blue

Used for cool blue-tinted neutrals, card backgrounds, and layered surfaces

50	100	200	300	400	500	600	700	800	900
#edeff6	#d5d8ea	#b3b8d9	#8f98c7	#6e79b6	#4e5ba6	#424d8d	#374176	#2c345f	#23294b

Green light

Used for positive indicators, growth metrics, and nature-themed accents

50	100	200	300	400	500	600	700	800	900
#f0f9e8	#daf1c9	#bde69d	#9fdb70	#82d045	#66c61c	#57a818	#488d14	#3a7110	#2e590d

Purple

Used for premium features, creative branding, and focus-state indicators

50	100	200	300	400	500	600	700	800	900
#f2effe	#dfd7fd	#c6b8fc	#ab97fb	#9278f9	#7a5af8	#684dd3	#5740b0	#46338d	#372870

Blue light

Used for informational banners, links, and light interactive accents

50	100	200	300	400	500	600	700	800	900
#ebf9ff	#cff0fe	#a9e3fd	#80d7fc	#5acbfb	#36bffa	#2ea2d5	#2688b2	#1f6d8f	#185670

Teal

Used for informational highlights, fresh accents, and secondary action states

50	100	200	300	400	500	600	700	800	900
#effdfa	#d9faf4	#baf6eb	#9af1e1	#7cedd8	#5fe9d0	#51c6b1	#43a594	#368577	#2b695e

Pink

Used for playful accents, creative highlights, and expressive UI elements

50	100	200	300	400	500	600	700	800	900
#fdedf8	#fbd3ef	#f8afe2	#f48ad5	#f167c8	#ee46bc	#ca3ca0	#a93285	#88286b	#6b1f55

Rosé

Used for romantic accents, soft warnings, and feminine-toned highlights

50	100	200	300	400	500	600	700	800	900
#feecf0	#fdd0db	#fbacbe	#f985a0	#f86083	#f63d68	#d13458	#af2b4a	#8c233b	#6f1b2f
